Manufactured by

Calypso

The patented winding device gives you the options to adjust the blades indoors or outside

An ultimate answer to weather protection and privacy in outdoor areas such as patios and decks, you can even place the control inside so there is no need to venture outside to adjust the blades

Calypso Pergola

Pergola overhead control gives you infinite placement options

SeaView

Traditional shutter system with options of adjustable or fixed louvre awning to give you optimised privacy and climate control.

Montego Sliding

The 19mm standard Montego frame provides for slimline use where space is limited.

Inbuilt flyscreen

Montego Bi-fold

The 38mm Montego frame with inbuilt flyscreen for keeping the pests out.

- ✓ Adjustable blades for infinitely variable control over light, breeze & comfort levels.
- ✓ The smooth lines and 70mm aluminium aero blade give a modern, contemporary look which will remain fresh for years.
- ✓ Extruded aluminium for durability and consistent quality.
- ✓ Dual control arms for balanced appearance and quality closure. May be split for multi control format.
- ✓ Powder coat paint finish for low maintenance combined with smooth, attractive and long lasting good looks.
- ✓ UV stabilised components for maintenance free operation and smooth control.
